

Jeff de La Chaise

Hello, I'm percussionist since 30 years, living in France but moving also around the world. I've born in Paris the "sono mondiale" where I received from my father the mission to initiate and share threw music the universal pleasure to "make together". Since the eighties, I travel to Africa, Spain, North and South America, meeting peoples, musicians, looking for musics and cultures coming from the "black soul". I'm in love with those rhythms and grooves. Also to jam with them !

I use to play with many musicians of jazz blues and other music and I create "Tempo oiô!" a percussionist and horn's band which pays homage to the afro-american-latin musics.

I'm teaching and working for carnivals with children's groups with more than 120 people.

I worked much with dancers of contemporary style in schools and companies. I've been initiated to Umbanda and the orishas, son of Ochosi, I work with therapist, shamans and dancers from the groups of the wonderful Gabrielle Roth (the 5 rhythms).

High !
